

## **Refratechnik celebrates its 75<sup>th</sup> anniversary**

With the founding of Steinwerke Feuerfest Karl Albert in Vogelbeck near Göttingen in 1950, the success story of the now globally active Refratechnik Group, now headquartered in Munich, began. In 2025, the company employs more than 2,100 people worldwide in the refractory and raw materials industry and is celebrating its 75<sup>th</sup> anniversary. To mark this special occasion, Refratechnik Cement GmbH is organizing an open day at the Göttingen plant on June 21, 2025 – where it all began.

## **The Refratechnik Group**

Highly developed refractory products, service, and process know-how, which are applied worldwide in all industrial high-temperature processes (e.g. in the cement, lime, ceramics, steel, aluminium, NF metals, and glass industries), are central elements in the service portfolio of the Group that is headquartered in Munich (Germany). Moreover, Refratechnik is a leading manufacturer of high-grade magnesia products. With a strong focus on sustainability, globally unique deposits of cryptocrystalline magnesite in Australia, and macrocrystalline magnesite in Canada are mined, processed, and supplied to customers worldwide.

As the biggest family-owned company in the refractory business worldwide, Refratechnik pursues a value-oriented corporate culture, in which team spirit, expertise and competence, consistency, and close customer contact in particular, are of great importance.

Proudly, Refratechnik celebrates its 75<sup>th</sup> anniversary with sincere thanks to all business partners and employees.

Refratechnik Holding GmbH, Munich, June 21, 2025
