

Expect the best. **REFRA**TECHNIK

Thanks to its innovative strength and the extraordinary commitment of its employees, Refratechnik is one of the world's best-known global players in the refractories industry. To further expand this position, we are focusing on international growth markets. With and for customers from the iron and steel industry as well as non-ferrous metallurgy, we develop the optimum combination of products, services and service offerings.

As part of an international group of companies with more than 1,500 employees, we employ over 150 specialists in our segment. We generate more than 100 million euros in sales and were able to expand steadily due to our dynamic growth. With production facilities in Germany, Spain and China, we are able to quickly and competently meet the highest quality requirements of our customers. Find out more about the Refratechnik Group at: www.refra.com
